#### Silver Star® Silver Boom

The Silver Boom is a convenient and powerful lift for powerchairs and scooters alike. It has a weight capacity of 300 lbs, allowing you to lift heavy mobility equipment from the ground in the trunk of your car, van, or SUV with little to no effort. All you have to do is swing the arm of the lift until your mobility device is directly above the trunk/cargo area, and then lower it down using the convenient hand control. Owning a dependable piece of equipment like the SliverBoom 300 greatly increases your independance and mobility. No longer do you have to worry about lifting and removing your powerchair or scooter from your trunk alone, the SliverBoom 300 is here to help.

#### BHM® V4 Ceiling Lift

Take care of your loved one and yourself too with help from BHM's V4 ceiling lift. The most technologically advanced lift on the market, the V4 safely and effortlessly lifts and transfers individuals from a chair to the bed, the bed to a chair, into the bathtub or to the toilet.

- · Less obtrusive for patients
- Always available for use
- No storage requirements
- Safe and easy to use for moving your loved one
- Less space required to operate than floor lifts

Medicaid 🗸

#### Access Industries® - Select® Stairway Lift

Maximizing your independence and freedom while minimizing the dent in your wallet is the hallmark of our affordable Select stairlift. Select gives you the proven performance of a much more expensive model at a truly great price. The Select stairlift is designed for safety, comfort and convenience. Its sensors will automatically detect something blocking its path and gently stops to prevent damage to the lift or the object. When the object is removed, the stair lift continues on to your destination - no problem!

- · A smooth and quiet chassis
- Hard working, 1/2 horsepower motor
- An easy-to-use hand-held control designed to work flawlessly, even for those with limited hand mobility
- Extra cushioning throughout the chair
- Added thigh support through a longer seat

#### Access Industries® - Excel® Stairway Lift

The Excel® makes getting around your house simple and enjoyable, they have packed this stair lift with plenty of features! The amenities that come standard on the Excel® would be costly extras on some other models.

- A comfortable contour seat that swivels and locks at 60° or 90° away from the top of the staircase and lets you get on or off the lift with confidence
- The padded armrests, which make your ride much more comfortable, fold up and out of the way – giving you extra space to get assistance when you need it
- A state-of-the-art operating control switch can be placed on either side of the seat for your ease of use

#### Next day installation on all in stock stairway lifts!

- Complete with extended head pull tube, extended drive shaft, 4in bed frame extensions, link fabric, and helicals
- · Works with all IVC beds and original sytle Invacare beds

Medicaid

#### Invacare® Offset Trapeze Bar

An important patient room accessory designed to help patients change positions while in bed, and aid in the transfer from bed to chairs with minimum attendant assistance. Invacare trapeze units have a wide range of height adjustments and handbar positions to maximize patient accessibility. The unit can be installed quickly and easily on an Invacare floor stand or on any Invacare Home Care bed end.

- · Heavy-gauged octagon-steel construction with no tools required for an easy assembly
- Nylon coating ensures a secure grip on handbar
- Wall bumpers and padded mounting brackets protect bed ends and wall surfaces

#### Invacare® Hydraulic Lift

Too often, manual patient transfers lead to caregiver back injuries. The 9805 Hydraulic Lift was created to make transport situations safe and affordable for everyone involved. And with its slim design, the hydraulic lift is versatile enough to use for any and all patient moves. The features of the 9805 include a padded swivel bar and push handle, a 450-pound weight capacity, durable chrome-plated construction and 360 degrees patient rotation without side-to-side sway. Lightweight construction and easy disassembly allow quick transport and setup. Indispensable to patients and caregivers alike, the 9805 offers safety, comfort and stability.

- 20" 64" range allows for patient to be picked up from lying position on floor
- · Elongated handle design serves a broad range of operator heights and offers improved handling ability
- Offset mast and boom style provide better lift path, maximizing full travel range
- Pump handle can rotate from side to side for convenience of attendant
- · Six-point swivel bar attachment easily adapts to all sling styles and positions

#### Invacare® Full Electric Lift

The Invacare line of Reliant Plus lifts was conceived to prevent caregiver back injury and to ensure dignity in patient handling. These high-quality lifts are comfortable, reliable and an integral tool for staff and caregivers. Using the lift for patient handling reduces staff injuries, saving you money and reinforcing safety as a priority in your healthcare facility. Reliant Plus lifts support up to 450 pounds, making potentially challenging transfers smooth for resident and caregiver. The new higher lift range allows easy access to beds, chairs, toilets, floors, and tubs (with at least 4.5in clearance).

- Electronic system includes two 24-volt batteries: one for lift, one for batterycharging station; a manual emergency lowering device, and anti-entrapment if boom meets any resistance while lowering
- Height range allows lifting from floor and high surfaces. Safety-tested for highest quality standards. Base legs adjust easily and lock securely into open position with the padded shifter handle
- Manual lowering for instant response to power loss
- Padded swivel bar with 360 degrees rotation and six-point hookup allows use of Invacare chain-free slings as well as older-style slings with chains or straps

#### Invacare® Hydraulic and Electric Stand Up Lifts

These Stand Assist Lifts are designed for secure patient transfers. Secure and safe for both users and caregivers. Quick and easy access to cleaning and changing. Doubles as a commode lift for additional flexibility.

- Unique, ergonomic foot pedal base opening
- Large, easy to grip handles for easy maneuvering
- Lower base height maximizes stability and fits under most beds
- Rubber base coating protects furniture and walls
- Adjustable knee pad unit
- Quick release removable foot platform
- Optional buttock strap for patients requiring additional support
- Ergonomically designed hand pendant with pendant hook
- Maximum weight capacity 350 lb.
- Heavy-gauge steel construction

#### Electric Model Includes:

- Warning beep for low battery charge and weight capacity levels
- Easy access emergency stop button
- 24V DC motor allows quiet, smooth operation

#### Merits® Bariatric Hospital Bed

- This heavy-duty full-electric bed frame was designed for bariatric individuals, capable of supporting up to 600 pounds. The bed frame extends to the edges of the bed deck for better support. Using the hand pendant, the client or caregiver is able to change the positioning of the head and foot sections, as well as the bed height. And, even though this is a substantial bed, setup within the home is easy.
- · 600lb Weight Capacity
- · No tools necessary for set-up Split pan design with removable bed ends is easy to set-up
- · Emergency manual crank included
- · Hand control (included) provides for multiple bed positioning for patients
- Quiet, smooth operation and all steel construction
- · Heavy Duty Frame ensures strength and patient safety
- · Larger sleep surface than conventional bed

Medicare√ Medicaid√

#### Invacare<sup>®</sup> Bariatric Power Wheelchair M94

The Pronto M94 with patent-pending Stability Lock technology that ensures the chair will remain stable over the toughest terrain. Sharing the same footprint as the Pronto M91, the M94 has the desired maneuverability for comfortable indoor use without sacrificing rugged outdoor capability. The M94 features SureStep technology that makes negotiating thresholds and transitions of up to two inches high effortless. The M94 utilizes the MKV NX 80 controller standard with an option to upgrade to the MKV EX, giving the consumer precise, confidence-inspiring control.

- · Patent-Pending Stability Lock prevents forward tipping and improves overall stability
- 500 pound user weight capacity
- · SureStep technology for smooth driving over thresholds and transitions up to two inches in height
- MK690 90 amp; SPJ+ Joystick standard optional MPJM6 joystick
- · Compact footprint for outstanding indoor maneuverability

- durable plastic with non-skid base
- Ideal for getting in and out of vehicles
- Great for use at home or office
- Helps prevent back and hip strain
- Comfortable polyfoam padded cushion
- Removable, machine washable cover
- Weighs: 2-1/2 lbs
- Weight capacity 300 lbs

## DMI® Overdoor Traction Set

Deluxe Overdoor Traction set includes everything needed for installation: pulleys, traction rope, notched adjustable spreader bar, head halter, S-hook and vinyl weight bag with graduated scale up to 20lbs. This product provides ease of use in cervical traction therapy. One size foam padded head halter fits most.

Medicare√ Medicaid√

#### Littmann® Lightweight Stethoscopes

- For your comfort and control the chestpiece is finger-contoured for a secure hold. For the patient's comfort there is a nonchill rim
- The eartubes are set at the proper anatomical angle so they don't need readjusting
- The patented tunable diaphragm allows you to listen selectively to low or high frequencies without having to turn over the chestpiece

#### Life Source® Automatic Blood Pressure Monitor

A&D Medical has taken the guesswork out of blood pressure monitoring by offering two innovative features with the new premium LifeSource UA-851 blood pressure monitors.

The LifeSource UA-851 digital blood pressure monitor offer the WHO blood pressure classification indicator which color-codes measurement classifications and removes the stress of misunderstanding your blood pressure results.

ADLS

#### DMI® & Mercer County Rehab® Reachers

- · Reach assistance is ideal for people with limited range of motion and those who have difficulty bending
- · Reachers are great for those hard to reach places because they can add up to 32" to anvone's reach
- . These are perfect for picking up objects as small as a dime and as large as a quart bottle
- Trigger-style erogonomic handgrips are designed for easy use and comfortable grasp
- · Our reachers are durable and lightweight
- 2-1/2" jaw opening features interlocking tips
- · Serrated jaw offers a secure grasp
- · Magnet on jaw tip helps pick up lightweight metal objects
- · Slip-resistant ergonomic, contoured handle
- Brushed aluminum frame

**SIG** 

Available in 26" and 32" folding and non-folding

#### Mercer County® Leg Lifter

The leg lifter assists in moving patient's leg in and out of wheelchair. Made of nylon webbing with an aluminum center rod. The unit now comes pre-formed with a wide non-slip foot stabilizer. Available in blue, 42" long.

#### Mercer County® Dressing Stick

A lightweight dressing aid that is both economical and easy to use. Features a 5/8" diameter wooden dowel rod with a "C" hook on one end and a push-pull hook on the other end

#### DMI® Long Handle Shoehorn

- · Helps slip into shoes without bending, bruising heels, or crushing the backs of shoes
- Ideal for people with a limited range of motion
- · Slip-resistant, ergonomic, contoured handle
- · Flexible contoured head for easy use
- · Handle strap allows shoe horn to hang for storage
- 24" or 30" chrome-plated metal shaft

#### Mercer County® Zipper/Button Aid

- · Ideal for those with limited hand dexterity or use of only one hand
  - · Works by passing loop through button hole, over button and pulling button through loop
  - · Metal hook assists with zippers
  - · Easy-grip wood handle with button hole loop and small metal hook on opposite ends

#### Mercer County® Sock Aid

- · Designed to help an individual put on a sock or stocking Ideal for people with a limited range of motion
- · Available in rigid and semi-rigid plastic
- · Features braided plastic cord with soft foam handles

#### Mercer County® Clear Food Guard

- · Clear polycarbonate plastic is strong and functional, yet attractive.
- . Its the perfect tool for persons who need a little extra assistance when eating.
- A snug fit means that the guard stays securely in place while scooping up against it
- · Can be attached quickly even by persons with the use of just one hand

#### Lumagny® Illuminated Magnifine Glass

- 3" magnifying window
- Magnifies at 6 power
- · Uses two AA batteries (not incl.)
- Can be used as both a magnifine glass as well as a flashlight

#### Mercer County® Utensil Foam Tubing

This closed-cell foam tubing is useful for building up tool and utensil handles and for increasing softness. Built-up handles give greater control to people who lack coordination, strength, or gripping ability. Tubing has a slip-resistant "skin" and is dishwasher safe. Supplied in 12" pieces that can be cut to length. Available in assorted color packages, tan, red, or blue single color packages.

#### Mercer® Sure Grip Bendable and Weighted Utensils

Spoons and fork feature twist in metal shaft that provides easy bending to any angle to accommodate reduced range of motion. Can be bent to the right or left to the position that provides the greatest comfort for the user. Angled rocker knife cuts with minimum effort. Comfortable 1½" wide built-up ribbed rubber handles improve grip. Stainless steel silverware. Dishwasher safe, latex free.

#### Mercer County® Pill Splitter

This device splits pills and vitamin tablets into two halves so they are easy to swallow. It also helps prevent uneven doses and the risk of cutting the hand when dividing pills.

The tablet is placed between the two lids of the device. The upper lid has a thin blade that splits through pills as it is closed. This device requires only light pressure, and can be activated with a single finger. Dishwasher safe.

## DMI® Pill Crusher

- Fast, safe and easy-to-use
- Heavy-duty plastic construction
- Crusher breaks-up tablets into a fine powder
  Durable and lightweight
- Easily washable
- Convenient size for travel

#### Mark of Fitness® Pillbox Timer

Pillbox timer includes a clock with alarm, a medication reminder, and a four compartment pill tray. The Mark of Fitness MF-11 Pillbox Timer can be set to remind you to take your medication from one to eight hour increments. The four section translucent pill drawer with sliding halfcover enables dumping of one compartment without any additional days spilling out

#### DMI® Weekly Pill Organizer

- 7-day capacity with Braille identification
  Extra-large planner has 28 over-sized pill compartments
- Transparent plastic allows medication dosage monitoring
- Dishwasher safe and constructed of heavy-duty plastic

#### Mercer County® Spyro Laces

Spiral shoelaces are a fun solution for those that lack the fine motor skills needed to tie shoes. Simply lace, pull to desired tension and you'll never have to lace again. Sold one pair per package in a variety of colors.

#### DMI® Folding Shopping Cart

- Ideal for transporting groceries
  - Folds compactly for storage
  - Features textured handgrip
     for secure handling
  - Hooks onto most retail shopping carts
    Features 6" rear and 3" front solid tires
  - Basket size: 12" x 20" x 10"
  - Overall size: 15" x 36" x 17"
  - Weight capacity: 100 lbs
  - Weighs approximately: 7 lbs
  - Available in multiple colors

Independence<sup>™</sup> 2-Handle Mug

This attractive mug is crystal clear and exceptionally strong. The handles are easy to hold and the large base adds stability to help prevent spills. Comes with 2 lids: one with a spout and one anti-splash, both usable with a straw. Holds 10 oz of liquid and is dishwasher safe. Spill-proof design keeps liquids inside where they belong.

This lightweight, highly mobile shopping cart is perfect for a trip to the grocery store or laundromat. Features a large storage compartment and easy rolling wheels.

#### McKesson<sup>®</sup> Conform<sup>™</sup> Bandages

cotton/polyester blend crocheted bandage. Low lint, high absorbency. Holds securely to any body contour: allows for movement and some soft tissue swelling. Ideal for securing dressings, IV's and splints or for providing mild compression or support. Available in multiple sizes ranging from 3"x4yrds to 6"x 4yrds. Please call for specific information.

#### Sterile and Non-Sterile Gauze

Our gauze sponges come in a wide range of sizes and plys. Avaliable in sterile and non-sterile. These gauzes are 100% cotton. Appropriate for wound dressing, cleaning, prepping, or packing. Processed in a manner that reduces linting. Single use, latex-free. Please call for specific sizing and pricing information.

#### McKesson® ABD Pads

**Medicare** Medicaid 🗸

Medicare√

Medicaid 🗸

#### ABD Pad is a highly absorbent dressing that provides padding and protection for large wounds. The quick wicking pad with moisture resistant barrier offers superior performance.

- · Wet-proof barrier to retard strike-through
- · Fluff layer to absorb exudate Soft outer non-woven layer
- Sealed on all four sides

#### DuoDerm<sup>™</sup>

Duoderm CGF Control Formula Dressing maintains a moist wound environment for optimal healing. This popular product used for the treatment of lightly to moderate draining pressure sores, interacts with wound excretions and enables removal with little or no drainage. This product does not contain latex. Available in 4x4 and 6x6.

**Medicare** Medicaid 🗸

#### Xeroform<sup>™</sup> Petrolatum Dressing

Medicare Medicaid

The Kendall Xeroform Petrolatum Gauze is a sterile dressing composed of 3% Bismuth tribromophenate in a petrolatum blend on fine mesh gauze. The Xeroform gauze patch is a medicating and deodorizing, occlusive and nonadhering dressing packaged in sterile convenient peel-open, tamper-proof packages. Available in 1x8, 2x2, 4x4, and 5x9.

#### Tegaderm™

This highly absorbent, breathable dressing is constructed from a conformable polyurethane foam pad and an additional absorbent, nonwoven layer with a border of transparent adhesive film. Impermeable to liquids, bacteria and viruses. Available in 2x2, 4x4, and 6x8

**Medicare** Medicaid **V** 

#### UnnaBoot<sup>™</sup> Flexable Bandage

Unna boot bandages are for the treatment of venous stasis leg ulcers, thrombophlebitis, lymphatic edema, sprains, strains and dislocations. These unna boot bandages contain a soothing zinc oxide paste formula. Available in 3" or 4".

#### Iodofoam & Plain Packing Strips

These tightly woven 100% cotton gauze packing strips are ideal for sterile drainage of open and/or infected wounds. Available plain, or with iodoform. All are packaged one strip per bottle, sterile. Available in 1", 1/2", and 1/4".

#### Fisher Paykel® Sleep Style™

The SleepStyle™ HC234 is newest model following the HC221LE Series CPAP system from Fisher & Paykel. The HC234 integrated flow generator offers a greater pressure range, altitude adjustment and enhanced user ergonomics.

The HC234 also incorporates Fisher & Paykel Healthcare's patented Ambient Tracking® PLUS auto-adjusting humidification technology.

The HC234 is a truly integrated CPAP system that includes heated humidification at the onset of therapy to improve acceptance and compliance. It is also the smallest combined CPAP and heated humidifier, so it uses less bedroom space and makes traveling easier.

Medicare Medicaid

#### Resmed<sup>®</sup> S8<sup>™</sup> CPAP with Heated Humidifier

The S8 is the premium CPAP device in ResMed's S8<sup>™</sup> Series , the smallest and quietest product range on the market . The S8 features new whisper-quiet operation that is 75% quieter than before.

- · Greater comfort than standard CPAPs
- · Comprehensive efficacy and compliance data
- · Flexible patient management options
- Smart Data for therapy feedback · Automatic altitude adjustment
- · Breath by breath compliance

#### Respironics<sup>®</sup> M Series<sup>™</sup> BiPAP

Developed from the proven REMstar Auto, the BiPAP Auto features a proactive, multi-level algorithm that analyzes several parameters to monitor and respond to a patient's breathing. A key parameter is flow limitation (a common early indication of complete obstruction). The auto algorithm performs two types of tests

(Pcritical and Poptimal ) that allow the pressure to be maintained at level at which obstruction is not likely to occur but is not unnecessarily high, thus maximizing patient comfort. While the algorithm is performing its proactive tests, it is also monitoring the patient's breathing patterns for occurrences of obstructive events such as snore, hypopnea or apnea. If a snore or apnea is detected, the algorithm will quickly but smoothly raise EPAP to eliminate the event.

• Air Vent Port Simple to Fit

#### Medline® Optium™ Glucometer

Medicare√ Medicaid√ This glucose meter provides simple, everyday testing, with a sample size of 0.6 microliters and a fast five second test time. With a 450 result memory and large easy-to-read display it can handle all your testing needs.

- Application of inadequate blood samples in this system leads to erroneous results or error messages
- A unique fill trigger prevents the test from starting until an adequate blood sample is applied
- It is approved for alternate site testing

#### Medline® Optium<sup>™</sup> Test Strips

Medicare V

•TrueMeasure technology to assure accuracy •End-fill strips use extremely small blood samples •Alternative site testing

Fast 5 second test time
Designed to reduce the effects of interference from metabolites and common medicines such as aspirin, vitamin C and paracetamol: Glucose specific results

 Individual foil wrapping to avoid inaccuracies caused by the effects of exposure to air or moisture.

 Avoids false starts through patented fill trigger which is designed to prevent tests starting until enough blood is applied

## Kendall® Monolet™ Lancets

Fits almost every lancing device. Both Monolet Originals and new Monolet Thinness provides comfort, accuracy and consistency.

Medicare√ Medicaid√

#### Spenco® Arch Supports

Spenco® Orthotic Arch Supports are specifically designed to help control the position of the feet. They are shaped to help stabilize and balance the foot and to provide the extra comfort and support needed for optimum performance. Great for patients that suffer from diabetic foot ailments.

#### Aetrex® Diabetic Shoes

Doyle's is proud to announce the new addition of the iStep Digital Foot Analysis Center located right in our showroom! Have one of our knowledgeable staff members analyze and fit you to the perfect shoe and insole! Stop in today to see a demonstration of the iStep diagnostic center.

The iStep accurately measures your foot size and determines your arch type and pressure points in less than 30 seconds. The power behind this patented technology is 3,744 gold plated barometric sensors that measure the pressure exerted by your foot every .25 cm2. The high concentration of sensors allows the device to perform a precise reading, even for a small child. Amazingly, this compact device also incorporates 1,326 infrared LEDs and Receptors that are aligned every half millimeter to ensure unmatched accuracy when measuring your foot.

The iStep immediately recommends custom selected footwear and orthotic styles for your individual footwear needs. The net result is an extraordinary experience that will properly match you with the ideal shoes and orthotics for your feet that will make you look and feel your best. In a matter of seconds, you will on your way to a better life.

The Ambulator® B2000 Medicare Medicaid The Ambulator® B2000 Men's Lace Oxford is designed to limit stress at the areas of the foot most susceptible to pain. These shoes provide unsurpassed comfort and protection. The lightweight, removable Aetrex orthotics and Mozaic™ Customization Technology insoles provide optimum comfort and shock attenuation. This footwear is often recommended for diabetes, arthritis or anyone seeking a shoe with maximum comfort. Lynco® Conform Orthotics are recommended to protect and comfort the insensitive diabetic foot and the hypersensitive arthritic foot. These tri-density orthotics are constructed with a Plastazote® top cover that customizes to the foot during the gait cycle and accommodates pressure hot spots for maximum protection.

Lynco® Custom Orthotics Medicare Medicaid

#### Prevail® Belted Undergarments

For moderate bladder control needs for both men and women. Features an advanced core design and fast absorbing Blue Stay-Dry Strip that improves skin drvness and reduces the potential for leakage, for improved comfort. Cloth-like back sheet and full length adhesive strip for secure attachment in underwear provide additional comfort and leakage protection.

Medicaid

## Sani Pant® Pull-on Briefs

Sanipant Pull-on Brief. One-Piece Waterproof Cover-Up for Pads, Liners or Diapers. The Pull-on style is best suited for those who are more active. 100% waterproof to give you complete confidence, day or night. Plasticized polyester exterior for noiseless movement. Elastic waist and leg bands for a comfortable fit. Durable construction to withstand repeated laundering.

## DMI® Waterproof Sheets

- · Helps protect bedding from moisture and is soft and comfortable against the skin
- · Cotton flannel is bonded to non-allergenic synthetic rubber
- Neutral white finish
- · Sheet is autoclaveable

#### Medline® Reusable Underpads

This popular underpad provides a good combination of durability and performance. Its 2 x 1 twill-weave face fabric is exceptionally strong, and a heavy-duty poly/rayon soaker offers excellent absorbency. Triumph underpads have a Vintex barrier.

#### Mentor® Intermittent Catheters

Sterile. For intermittent general catheterization. Fire polished evelets and siliconized surface allow smooth insertion and reduce the risk of urethral trauma. Individually packaged. Latex-free.

## Prevail® Pull-on Briefs

Ideal for men and women who want the look and feel of underwear. The soft, stretchable, cloth-like back sheet provides an incredibly secure and comfortable fit. Ventilated panels allows air to freely migrate to the wearer, improving skin health and comfort.

Medicaid 🗸

#### Nu-Fit® Diapers

Featuring First Quality's Advanced Zoning System, Nu-Fit briefs protect against unwanted leakage while keeping the skin dry by locking moisture in place. Breathable zones allow for more air to circulate reducing the risk of skin irritation or heat build-up. The Easy-Lock Fastener (ELF) tabs grip securely and can easily reattach multiple times without losing their effectiveness or becoming sticky. Nu-Fit briefs are great for those individuals with moderate to heavy incontinence. With this level of performance, the Nu-Fit Adult Brief is an exceptional value.

Medicaid 🗸

## Medline® Disposable Underpads

Medline Potection Plus Disposable Fluff-Filled Underpads prevent slipping and minimize accidents. The feature diamondembossed fluff-fill to help control fluid leaks. Added embossed polypropylene backing controls slipping to reduce the risk of leaks on patients and bedding.

Medicaid

#### Mentor<sup>®</sup> External Catheters

Freedom CATH is a self-adhering, one-piece catheter for secure everyday use. Combines a comfortable latex sheath with a wide, watertight adhesive seal.

Medicare√ Medicaid 🗸

Medicare🗸 Medicaid 🗸

## Kendall® Leg Bags

These leg bags come with comfort straps and are ideal for ambulatory patients. The sturdy bags are latex-free and feature a sterile fluid pathway. Twist valve bag.

#### BioStim® LX Digital TENS Unit

Dual channel digital TENS device allows more precision in stimulating nerves to treat pain. Compact design has flip-top LED display screen that is easy to read. Push button controls and simple instructions guide the user through preprogrammed or programmable functions. 4 modes of operation.

- · Its compact size and user freindly features make the BioStims design unique among electo-therapy devices
- · LCD screen and digital keypad
- A timer allows the patient to use the device for a specified period of time
- The two channel device incorporates touch proof design and runs on four AA batteries

#### Jobst® Compression Stockings

JOBST® is the #1 physician recommended brand of medical compression stockings, and our custom products are backed with over 50 years of experience in fitting and design. The name JOBST® means effective compression therapy and quality. That is why JOBST® is the #1 Physician Recommended brand. While therapy is our first concern, we realize that comfort and style are also important to you.

· Compression Ranges : 8-15mmHg, 15-20mmHg,

20-30mmHg, and 30-40mmHg

• Available in Knee, Waist or Thigh High

· Come in a wide range of colors and styles

#### Jobst® Gauntlets and Arm Sleeves

These gauntlets and arm sleeves provide gradient compression to help maintain the limb size of lymphedema patients. Features a lightweight, knit construction with a compression level of 15-20mmHg or 20-30mmHG. Reduced compression at the wrist provides an effective and comfortable fit

#### Jobst® SensiFoot Socks

The Jobst Sensifoot Diabetic Sock was designed specifically for people with diabetes. Diabetics receive extra cushioning along with reduced irritation and pressure from the non-irritating, smooth, flat toe seam and extra padding in the foot, heel and toe of the Jobst Sensifoot. The Jobst Sensifoot Diabetic Sock is made from an acrylic fiber blend that wicks away moisture to keep feet comfortable and dry.

#### Teds<sup>®</sup> Knee & Thigh

Medicaid

#### Count on T.E.D. Anti-Embolism Stockings with its clinically proven graduated compression pattern to:

- · Reduce venous stasis in the entire leg
- Reduce DVT incidence by 50%
- Increase blood flow in femoral vein by 38%
- · Prevent tourniquet effect
- Inspection toe opening provides easy access for medical examination
- Protect patients after discharge
- Available in open or closed toe

## Jobst® Ulcer Care Stockings

Jobst® UlcerCARE TM helps venous leg ulcers heal. Designed specifically to help manage venous leg ulcers, UlcerCARE gives you freedom from weekly bandaging visits. UlcerCARE is a two-stocking system providing a liner and zippered stocking. Together they supply the gradient compression needed for a venous ulcer to heal

Medicare√ Medicaid

#### Jobst® Donning Gloves

New from Jobst ... a cotton knit donning glove dipped in latex. This glove allows for better dexterity than some rubber gloves, and helps protect your stockings from runs and snags. We recommend the small for women and the medium for men.

#### Jobst® Donning Device

Jobst Stocking Donner is a stocking donning device for aiding in the application of vascular stockings. Ideal for persons with arthritis and limited bending motion due to its wire application aid. It is easy use and can be used with open or closed toe compression garments. This device is lightweight with easy grip foam handles.

#### Airway<sup>®</sup> Breast Prosthesis

Airway's COMFORT SERIES Breast Forms possess a notable balance and weight that duplicates the profile and size of the natural breast. The Comfort-Triangle Traditional Weight is designed for use as a full size prosthesis and fits like a shallow to average breast form. Ideally shaped and weighted for a balanced fit in the bra with molded nipple. The Triangle Traditional Weight is made of a lightweight silicone gel and anatomically shaped with flattened edges. This symmetrical triangle standard weight breast prosthesis fits all figure types and may be worn on either side - Right or Left.

Medicare√ Medicaid 🗸

#### Airway<sup>®</sup> Mastectomy Bras

- · Accents of soft, simple floral lace with tricot and power net fabrics
- Non-stretch under cup
- · Supportive under band
- Offers comfort and firm support · Soft jersey knit fabric forms full bra
- pockets for prosthesis • Elastic shoulder straps
- · Back slide-adjustable straps

Medicare√ Medicaid 🗸

#### Trulife® Light Weight Breast Prosthesis

The Trulife Symphony Encore Breast Form is identical in shape to our popular Model 553. Its unique translucent quality is specially designed to adjust to various skin tones. Like all Trulife breast forms this form was designed to look and feel as close to the natural breast as possible. 25% lighter than traditional silicone forms.

Medicare **V** Medicaid V

Amoena® Light Weight Breast Forms

Adheres directly to the skin and therefore there in no slipping or movement and is ideal for women with an active lifestyle. This prosthesis can also be worn as a traditional partial shaper loose in the cup of the bra.

Medicare√ Medicaid

#### Amoena® Straps and Extenders

- Amoena Bra Strap Extenders extend the band size of your bra
- Great for bras with 1 4 hooks
- · Available in White, Pearl Beige, Black, and Candlelight

#### Amoena® Mastectomy Bras

Amoena post-mastectomy bras provide flawless shaping and support. These bras are ideal for average to full figures and also feature a smooth macro lace top cup. These bras include a soft mesh pocket that is virtually undetectable to hold the breast form (prosthesis) comfortably in place. Appropriate for all types of mastectomy/breast cancer surgery and breast reconstruction procedures.

Perfectly designed to wear

swimming or during sports

and leisure activity. These forms are naturally weighted

and a perfect prosthesis alternative for any type of

activity. Can be used on either the right or left side. Each form has a seamless back to help reduce any chance of skin irritation. The 1857 Swim Form is 100%

water proof.

#### DJ Ortho® TROM Locking Leg and **Elbow Braces**

Medicare

Medicaid√

The ease of use and versatility of the DJ Ortho Cool TROM can support a variety of protocols following major ligament surgery, meniscal repairs, patella realignment, regenerative chondroplasty, and stable fractures. The TROM or Total Range of Motion Post-op hinge, is an innovative, easy-to-use hinge that can adjust the range of motion with the click of a button. This Donjoy knee brace can lock instantly from 0 to 90 degrees in 10 degree increments.

The CE Elbow brace combines the ultimate in technology, design and materials to give you the strongest DonJoy elbow brace available. It provides excellent

medial/lateral stability and hyperextension protection in even the most physically demanding situations.

Medicare Medicaid 🗸

#### Royce® Hinged Knee Brace

The Royce Medical Neoprene Wrap Around Hinged Knee Support features removable hinge bars in a supportive design. This model enhances medial/lateral joint stability and features a wrap around knee support design for easy fitting and two straps above and below the center of the knee for enhanced compression. The hinged knee support is made from 1/8" neoprene and features an open space just behind the knee in the popliteal area to eliminate bunching.

- · Dual Action Hinges are removable for easy cleaning
- · Open popliteal area eliminates bunching and increases comfort · Front closures allow for hassle-free application
- · Wraparound Style accommodates all leg shape variations

Medicare√ Medicaid 🗸

#### Royce® Airform Ankle Brace

- · Patented "Flex edges" surround the rigid plastic delivering more support and comfort compared to other rigid stirrups
- Pivoting Heel Straps increase comfort and allow for full Dorsal and Plantar Flexion Range of Motion
- Inflatable air bladders allow the patient and/or care giver to adjust the level of compression that leads to reduction in swelling
- · Easy to adjust and apply
- Provides or Medial and Lateral control while allows for normal dorsi/plantar flexion

**Medicare** Medicaid 🗸

#### Royce<sup>®</sup> Pneumatic Walker

The Royce Medical Pneumatic Walker has been shown to be effective when used with severe ankle sprains, stable lower extremity fractures, soft tissue injuries, and as part of a rehabilitation program. The walker's patented pneumatic system allows you to find the ideal level of compression and a custom fit and allows it to comfortably accommodate the changing levels of swelling that occur during the healing and rehabilitation process.

- · Pre-Inflated pneumatic cells in the soft good provide superior compression, fit and comfort
- · Low-profile, rocker bottom is specially engineered to help promote a natural, stable gait
- · Low-profile design reduces bulk and allows for easy ambulation

**Medicare** 

Lightweight and easily adjustable

#### Medicaid

#### Royce® Airform Night Splint

The Airform Night Splint is light weight, and its low profile design makes it more comfortable. The brace fits either the left, or the right foot. The smaller, lighter design of the Airform Night Splint provides greater ease of use during the night in bed.

- · The Airform Night Splint provides an effective treatment for plantar fasciitis, achilles tendonitis, drop foot and post-static pain
- · Its lightweight, low profile design makes it more comfortable
- · Slips on and adjusts easily
- Fits left or right foot, comes in 2 sizes
